

E-BROCHURE

Bina

Custom-built motor yacht BINA boasts stylish contemporary living spaces that will truly feel like your home away from home. Built by Mondomarine in 2006, and followed by a refit in 2015, and constantly upgraded, BINA accommodates up to 12 guests within her luxurious design.

One of BINA's best features is an expansive sundeck that hosts a Jacuzzi circled by sun pads, sun loungers, and a bar and dining area. Offering more than simply a place to relax, this is a space to celebrate and create memories. An on-deck gym and an expansive collection of water toys encourage guests to make the most of their charter onboard BINA.

BINA's interiors are dominated by a light, modern colonial beach house theme, combining splashes of color with touches of dark wood. Her impressive leisure and entertainment facilities create a perfect environment for socializing and entertaining with friends and family. At the end of the day, guests can retire to one of five lavish cabins, three of which are full-beam, offering ample space and luxury.

SPECIFICATIONS
