

DEJA T00

DEJA TOO Launched by the prestigious Dutch shipyard Amels in 2003, the 52.0m (170ft) DEJA TOO boasts a sleek and contemporary design by Terence Disdale. The interior is beautifully designed and executed with extensive use of raised and fielded light oak panelling with burl relief, special lacquered furniture and hand chosen marbles. The upper deck saloon is vast and with the low windows port and starboard and the full length glass windows and doors aft, it offers panoramic views, wherever one is sitting.

Accommodation for 12 guests is arranged in 6 cabins. The full width Owner's cabin (pictured opposite) is positioned on the main deck forward with spectacular large windows providing amazing views and plenty of natural light. This double bedded cabin has a superbly spacious bathroom, dressing room, sitting area and study area en suite. A further twin guest/children's cabin is located aft of the Owner's cabin on the main deck which can be accessed from either the guests' side of the yacht or from the crews' quarters, making it a multi-functional cabin. An additional eight guests are accommodated on the lower deck aft in two double bedded cabins both with marble bathrooms en suite and two double bedded cabins both with shower rooms en suite.

DEJA TOO features excellent deck spaces for sunbathing, lounging or entertaining; some of the largest seen on a yacht of this size. The sundeck features a barbecue and a 5 person jacuzzi "dip pool" with a built-in sun bathing area plus a settee and table forward for dining underway. The wheelhouse level also boasts a huge open deck with a shaded round dining table for al fresco dining and a second barbecue. Overall, DEJA TOO reflects the high quality of craftsmanship achieved by the Amels shipyard, her stylish appearance, dateless interior and superb layout, combined with her impressive performance at sea, have set the standard by which many yachts in this size category are judged.
