

E-BROCHURE

# Komokwa

40 metre motor yacht KOMOKWA was designed by well-known Espinosa Yacht Design and built by Horizon Yachts. Her inviting interiors were developed and styled by Claudia Drettman.

Elegant lines and a dark grey metallic hull create a smartly sophisticated exterior. Plentiful deck areas include a vast flybridge offering the best on-board views, a bar and comfortable seating options.

Warm, neutral tones, and colorful upholstery and artworks blend together to produce an enticing, sophisticated atmosphere. This light and welcoming interior features 5 luxurious en suite staterooms with marble bathrooms. Timeless styling and sumptuous furnishings create an interior that is equal parts elegant and comfortable.
